Actions to take in a Financial Crisis

Wyoming Housing Network’s mission is to help people meet their housing goals. Right now, our communities are in a time of crisis. We offer Foreclosure Prevention Services and Financial Capabilities Counselling free. We are here to help. We ask during this time, if possible, please complete steps one thru three before contacting us so that we can most effectively help you with your situation.

Four Steps to take control and have a plan.

1. Create a Budget: Prioritizing needs that must be met first.
2. Make a list of all your creditors including their name, contact information, and account number and payment information.
3. Plan to contact different service providers and creditors to see if they have assistance or deferral plans in place. Many will work with you.
4. Research other assistance that might be available in the community to take some of the strain off your finances.
Observations from the last foreclosure crisis

• Many homeowners failed to respond to lender/servicer communication efforts
• Loan Modification scams were prevalent
• Homeowners needed a trusted source of information
  • Timely and proactive initial contact
  • Hands on interaction with the borrower
  • Targeted modifications/resolution which are uniquely tailored to preserve the homeowner’s ability to remain in their home
