

PRESS RELEASE 6/5/2020

Payu-Ta Inc., a private non-profit organization, recently received donations from three companies, who purchased a COVID-19 Safety Kit for three non-profit organizations, who have continued to serve its consumers during the Governor's declaration of emergency. The Safety Kits will serve these organizations well since there are front-line providers for the consumers they serve.

(COVID-19 Safety Kit: 200 surgical masks, 50-KN95 Masks, 2-Infrared Thermometers; 3-Face Shields and 10-eye googles).

Payu-Ta, on behalf of the recipients of the COVID-19 Safety Kits, would like to extend a heart-warming thank you and recognize the following companies for their special contributions to help the employees of the non-profit organizations below, who have continued to work non-stop through this pandemic crisis:

- Nissan Motor Corporation in Guam, whose contribution was provided to Mañe'lu, whose mission is to empower and educate children and families facing adversity to change their lives for the better, forever, through site based youth and family activities and the Micronesian Resource Center One-Stop Shop.
- Guahan Waste Control, whose contribution was provided to OASIS Empowerment Center, who provides women with a place to recover from alcohol and substance abuse.
- Latte Treatment Center, whose contribution was provided to Guma Mami Inc., who facilitates the full inclusion and integration of adults with intellectual and other disabilities into their communities through individual and family supports, as well as provides residential services to individuals with disabilities.
